Get help with your energy costs!

The 2008 Low Income Home Energy Assistance Program (LIHEAP) provides eligible households with cash grants of \$300 or more to help pay heating bills, and crisis grants of up to \$800 to deal with heating emergencies, such as a broken furnace or a potential heating shutoff.

Eligibility for LIHEAP assistance is

based on family size and household income. This year's eligibility income limit has increased, so more families may be able to qualify.

LIHEAP is not welfare. No lien is placed on a person's home who receives LIHEAP assistance, and people do not have to miss a heating payment to qualify.

The program is currently accepting applications. For more information or to get an application, contact one of my offices or visit my Web site at www.pahouse.com/Petrarca and click on the LIHEAP link.
