Our community has several resources for people in search of a job they enjoy and are good at doing.

Philadelphia has 13 EARN Centers (Employment, Advancement and Retention Network). The centers are neighborhood-based facilities that provide case management, job placement and other services to welfare clients to help them transition from welfare to self-sufficiency, and each is aligned with a district office of the Philadelphia County Assistance Office.

Seven of the offices can best serve our community because they are the nearest. This mailer provides the contact information for the seven closest EARN Centers. In the chart below, there are a list of ZIP codes and the EARN Center that corresponds with that ZIP code.

Look at your ZIP code and find the closest center to you.
