16B. Please tell me which of the following two statements you agree with most.

STATEMENT A: State government needs to be reformed completely to increase openness and citizen participation. We should hold a Constitutional Convention to rewrite how Pennsylvania government operates, especially the legislature, where it is possible to pass pay raises and the perks are too generous.

OR

STATEMENT B: State government needs to change, but a Constitutional Convention is too radical. Re-writing the Constitution through a convention will be too expensive and will make it easier for extreme groups to change our laws regarding taxes, guns, abortion, marriage, and immigration.
