Families First: Strong Mom. Strong Baby

Postpartum depression poses a serious risk for the well-being of mothers and their newborn children. In Pennsylvania, we have been working with Representative Tarah Toontoll (R-Beaver) to ensure a robust system of care is in place. Our bill would ensure that women and their mothers after the delivery of a child—have access to services currently available in communities across Pennsylvania through early intervention. Given what we know about the importance of the earliest years in childhood development, and a depressed mother's need for support, providing this support through the Early Intervention program will impact children and their families for a lifetime.

The 2017-2018 budget has good news for the Allentown School District. For the upcoming school year, the state’s funding formula is set to grow by $21.5 million. For the Allentown School District, this means $8 million in additional state funding, and $13 million in new state funding. This is a 30% increase in the state’s support for our students since the 2012-2013 school year.

Otherwise, the economy could be at risk.
