

Rep. Dan Miller invites you to a

# Tick Awareness & Lyme Prevention Seminar

Tuesday, May 28

7 p.m.

Mt. Lebanon Municipal Building  
710 Washington Road

Learn about tick-borne infections and how to prevent them. Awareness is the first step to take action. Lyme can be serious if not diagnosed and treated early. Ticks are a state-wide risk. A recent PA Environmental Protection study reported Lyme and other tick-borne diseases in all 67 counties. PA has led the nation in new cases.

Learn how to prevent tick bites, Lyme and tick-borne diseases!

## The seminar covers:

- Ticks and tick-borne diseases
- Preventing tick bites
- Protecting your pets
- Recognizing early symptoms
- Seeking help if you get sick
- And much more
