WORKFORCE

Low Wages = Teacher Shortage

*"Child care is the infrastructure that allows our workforce to function. When we invest in early childhood education, we invest in economic stability, school readiness, and the long-term success of our communities."*

Start Strong PA believes that because every child deserves an equal opportunity to a quality educational foundation that will prepare them to grow, learn, and succeed, we are calling on Pennsylvania policymakers to focus on the most important years of a child's development: the first three years of life.

To make meaningful progress toward families finding and affording high-quality child care and pre-k, Pennsylvania policymakers must:

- Support the proposed investments in the early care and education workforce (at a minimum):
  - \$10M increase for the Child Care Staff Recruitment and Retention Program.
  - \$2M increase for the Head Start Supplemental Assistance Program.
  - \$7.5M increase for Pre-K Counts.
- Strengthen the child care sector:
  - Raise the child care subsidy income limit so more working families can get help paying for a child care program they trust.
  - Dedicate funds so child care and pre-k programs can better service children with special needs.
  - Advance targeted reforms that reduce unnecessary burdens on child care providers while preserving strong, enforceable health and safety standards that keep children safe.
