North Wales Borough is developing a Streetscape Plan to help guide future improvements to our downtown. The plan will look at how our streets, sidewalks, buildings, and public spaces work together to create a downtown that is safe, welcoming, attractive, and functional.

Community input is a critical part of this process. Your feedback will help identify priorities, highlight concerns, and shape recommendations for future improvements.

Please take a few minutes to complete the survey:

Community Survey:

North Wales Borough Streetscape Plan

We need your input! You're invited to participate in a community survey to help the Borough identify future improvements to enhance the look, feel, and function of "downtown" North Wales. The plan will examine how streets, sidewalks, buildings, and public spaces work together to establish an environment that is safe, appealing, and inviting. Community feedback will help the project team identify community concerns, shape recommendations, and guide the process.
