Pennsylvania ranks 44th in the nation in education funding support. This is a tough reality for those of us who work in our public schools, which affects homeworks and requires less funding. It also affects our students, especially those in districts in the Allentown where underfunding is most pronounced. That is why I introduced legislation to provide an additional $1 million to the 100 most financially distressed schools in Pennsylvania. This proposal was adopted, and this will provide the Allentown School District with an additional $16 million in funding over next year. Statewide, support for education will increase a record $300 million compared to the 2020-21 budget. It is a huge investment in our community’s health and our nation’s health. It has never been easier to do it.

COVID-19 doesn’t magically go away. It requires us to roll up our sleeves, do our part and get vaccinated. If you have not, please consider your health, your family’s health, your community’s health and our nation’s health. It has never been easier to do it.

Modern medicine has made it possible to protect yourself from COVID-19. Safe, effective vaccines are available and plentiful in our community. The CDC, 89% of all COVID deaths are happening to people who were not vaccinated against the disease.

Health and safety are cornerstone components of government. In March, Rep. Peter Schweyer and the Allentown office in the Pennsylvania Capitol celebrated the occasion. This year, I was able to attend the Allentown Community Center to celebrate the opening of its outdoor pool.

Pennsylvania ranks 44th in the nation in education funding support. This is a huge obstacle to providing a quality education, which affects homes and small businesses. This also affects our students, especially those in districts in the Allegheny where underfunding is most pronounced. That is why I introduced legislation to provide an additional $100 million to the 100 most financially distressed schools in Pennsylvania. This proposal was adopted, and this will provide the Allegheny School District with an additional $16 million in funding over next year. State-wide support for education will increase a record $300 million compared to the 2020-21 budget. It is a historic investment in our schools, and I am thrilled to see this measure approved by the General Assembly and signed into law by Gov. Tom Wolf.

**Mental Health Legislation: Addressing Service Shortage**

For years, a huge obstacle to mental health care has been availability of professionals. There are simply not enough people available to serve the mental health needs of the nation. Working with Rep. Jeanne McNeill (D), Rep. Jason Ott (R), Rep. Newton Brown (R), and Rep. Frank Scree (D), I introduced a resolution to establish and administer a program to help educate, train and deploy more mental health professionals into underserved areas throughout Pennsylvania. Mental health doesn’t care how you vote. It doesn’t matter your age, race or gender. Nor does mental health care whom you are or what you do. At any time. This legislation shows the bipartisan energy to work toward solutions on an issue that concerns all Americans.

We have since returned to normal office operations and we are happy to see many familiar faces that we missed for so long. If you need help with any state government-related matter, please give a call (610-821-5577) to see how we can help. My office is open to serve you. The deadline for Pennsylvania’s 2023 Property Tax/Rent Rebate was extended to December 31, 2021 and my office is ready to help you file. Residents of assisted living facilities may be eligible if they reside in a facility which pays property taxes and meet the income limits for renters. We’ve learned that we can help most people with the relative forms or any other steps needed to receive their rebates. You can submit an online form. There’s more information on our website.
