Protect Against Identity Theft

Each year more than 15 million Americans have their personal information stolen. This includes opening phone credit cards, bank or utility accounts and occasionally using the identity to secure government benefits such as health care or unemployment. Pennsylvania Attorney General Josh Shapiro offers a variety of tips to help safeguard your identity and to provide guidance if you become a victim. Visit www.attorneygeneral.gov/identity-theft to find online resources. My office also has several publications we would be happy to share with you. Give us a call (610-621-5577) to request a copy of a resources guide.

Pennsylvania Supreme Court will help legal challenges to those maps. As the final boundaries are set, I will send another newsletter to let you know the district number in which you currently live and whether that is the district I currently represent.

I am committed to ensuring the current residents of the 132nd District have access to constituent services until the new legislative session begins in December.

You can follow details of the redistricting plan at www.redistricting.state.pa.us. Certainly, if you have any questions, my office will make final adjustments and then give my office a call or email me at RepSchlossberg@pahouse.net.

Help From PA Housing

Available products include programs for home modifications for people with disabilities, homebuying assistance, refinancing, energy efficiency loans and home purchasing assistance. PHFA also can provide counseling for homebuying, foreclosure mitigation and assistance to avoid foreclosure. Visit www.phfa.org/homeowner for more information.

Help With PennDOT

- Registered person reduced registration: initial application and renewal
- Vehicle registration renewal:
- Driver’s license renewal
- REAL ID inquiries
- Disability parking placard
- Surrendering or unchanged license plate
- Free photo ID replacement for voluntarily surrendering driver’s license

You can check for your name by visiting PaTreasury.gov or by calling 1-888-4PA-TREAS.

One in 10 Pennsylvania residents has money being held by the PA Treasury. It could be something like an old savings account, a forgotten paycheck or refund, a stock dividend or an insurance claim. Helping people claim what belongs to them becomes one of my top priorities since being elected office in 2013. In total, we’ve helped claim over $2 billion in money from the Treasury’s Unclaimed Property database. That’s money that has come back to Pennsylvania. You can check for your name by visiting PaTreasury.gov or by calling my office to have us check for you.

If you get a call or letter from me or my office with information about a claim in your name, it is not a scam. If you are unsure, call my office (610-621-5577) and we’ll answer any of your questions or concerns.

Critical Issue: Child Care

Access to high-quality early childhood education is important for the future of our children. It is also important for our economy. Before losing child care, children develop language and social skills. Before they turn six, children develop critical cognitive and emotional language functions. Before turning one, children develop critical physical skills. It is also important for our economy.

By focusing on the early years of a child’s development, we stand to benefit as each generation of kids develop critical cognitive and emotional language functions. Before they turn six, each generation of kids develop critical physical skills. Before turning one, each generation of kids develop critical physical skills.

The more critical years of development, we stand to benefit as each generation of kids develop critical cognitive and emotional language functions. Before turning one, each generation of kids develop critical physical skills. Before they turn six, each generation of kids develop critical physical skills.

FIGHTING FOR YOU AND YOUR COMMUNITY

Homeowner And Buyer Help From PA Housing Finance Agency

Available products include programs for home modifications for people with disabilities, financing to make home improvements, homebuying assistance, refinancing, energy efficiency loans and home purchasing assistance. PHFA also can provide counseling for homebuying, foreclosure mitigation and assistance to avoid foreclosure. Visit www.phfa.org/homeowner for more information.

Thank You For Doing Your Part

As we turn the calendar to 2022, I think we need to take a moment to express our collective appreciation for how so many people have stepped up in the past two years to help other people. Neighbors, friends, family, health care professionals, teachers … it’s a long list.

There is going to come a day when we look back on what we did and marvel at how many generous and wonderful acts took place. Yes, we’ve seen some strained, dangerous times, too. Economic means, medical means, the list is far too long. We’ve had to look to those sad stories because we need to see how important public health is, how vulnerable small businesses are and how critical it is to have a strong safety net or programs like unemployment will become a cornerstone. Still, we’ll be able to see how our hometown heroes came through and we should be grateful for the many who did their part.

Still, we’ll be able to see how our hometown heroes came through and we should be grateful for the many who did their part.

If you have not done so yet, please, talk to your doctor about the COVID vaccination and booster shot. Clearly, we need to eradicate vaccination against COVID to be a significant part of our lives going forward.
Our Success in the 132nd District

Affordable Housing

The Parkland School District offers world-class education for our students. The community should take a great deal of pride in the opportunities students have in our community at-large. Since I took office, we have bolstered Pennsylvania’s commitment to the Parkland School District by 46%. In the most recent budget signed by Governor Wolf, we managed to increase that funding by $12 million in basic education funding and 4.6% in special education funding.

Coca-Cola Park

For more than a decade, the Lehigh Valley has been home to the Coca-Cola Park baseball stadium and with $2 million from the Commonwealth to help Lehigh County upgrade Coca-Cola Park, it will be home for many years to come. It was a pleasure to work with Senator Browne and Representative Schweyer to make this possible.

Allentown Traffic Safety Improvements

In November, we helped secure $2.4 million for traffic safety improvements to help secure $21 million in federal funds to improve access to STEM opportunities. The new facility will be built along Hamilton Street and 8th Street in Allentown. Working with Representative Peter Schweyer, the new facility will be built along Hamilton Street and 8th Street in Allentown to help secure $8 million in state funding to help students in our region have access to STEM opportunities. DaVinci Science Center is expanding its facility, currently housed at Cedar Crest College, to help students in our region have access to STEM opportunities.

Support for ARC

Work & Recreation: Schweyer worked with Rite Aid to secure $30,000 to support the work of the Lehigh & Northampton ARC to allow the organization to provide education and services for people with intellectual and developmental disabilities.

Important Trail For Allentown and Lehigh Valley

Thanks to U.S. Senator Casey and Congressman MacArthur (R), 49 affordable apartments will be built along the partnership between Alliance for Building Communities and the Eastern PA Fair Housing Center. Additionally, the Allentown Housing Authority received an additional $1.6 million from the commonwealth to help with the redevelopment of the Little Lehigh Manor housing complex on top of the $2.7 million commitment made by Pennsylvania in 2019.

Our Success in the 132nd District

As your state representative, it is my job to fight for the 132nd Legislative District. We have had a lot of success in the past year. Here is a snapshot:

Better Schools For Our Kids

The Parkland School District offers world-class education for our students. The community should take a great deal of pride in the opportunities students have in our community at-large. Since I took office, we have bolstered Pennsylvania’s commitment to the Parkland School District by 46%. In the most recent budget signed by Governor Wolf, we managed to increase that funding by $12 million in basic education funding and 4.6% in special education funding.

Additionally, the Allentown Housing Authority received an additional $1.6 million from the commonwealth to help with the redevelopment of the Little Lehigh Manor housing complex on top of the $2.7 million commitment made by Pennsylvania in 2019.
Suicide Prevention Month
Death by suicide continues to plague our communities. Even before the pandemic, death by suicide had reached record highs as economic pressure, untreated mental health issues and substance abuse left many people vulnerable to despair and struggling to find hope. Each September, gatherings across the country come together to raise awareness about resources, break down stigma associated with mental illness and help people find hope. Last year, I participated in a Suicide Prevention Awareness event in the Capitol, as well as the Lehigh Valley’s 10th Darkness Walk hosted by the American Foundation for Suicide Prevention. Both events were powerful reminders about the lives affected by suicide and the very real need to improve our mental health care system.

DaVinci Science Center
Science Technology Engineering and Math (STEM) education is critical to the future of our nation and a core goal of this administration. DaVinci Science Center is expanding its facility, currently housed at Cedar Crest College, to help students in our region have access to STEM opportunities. The new facility will be built along Vandenberg Street and 6th Street. Our colleagues Speaker of the House Bryan Cutler, Representative Frank Farri (R) and Representative Tresa Pitt (R) are promoting the new DaVinci Science Center. Additionally, the Lehigh Valley Out of Darkness Walk hosted by the National Alliance on Mental Illness-Lehigh Valley, which I co-chair, will be held in September. Each year, the event is a reminder of the lives affected by suicide and the very real need to improve access to mental health care and support. We are hopeful that the new facility will be able to provide more than $10 million in state funding to help advance this project.

Coca-Cola Park
For more than a decade, the Lehigh Valley has been home to minor league baseball and with $2 million from the Commonwealth to help Lehigh County upgrade Coca-Cola Park, it will be home for many more years. It was a pleasure to work with Senator Browne and Representative Schweyer to make this possible.

Support for ABC
Work and Retirement Services, and DaVinci Science Center to help secure $8 million in state funding to help secure $2.4 million for needed STEM improvements. In November, we helped secure $2.4 million for needed STEM improvements. In November, we helped secure $2.4 million for needed STEM improvements. In November, we helped secure $2.4 million for needed STEM improvements. In November, we helped secure $2.4 million for needed STEM improvements. In November, we helped secure $2.4 million for needed STEM improvements. In November, we helped secure $2.4 million for needed STEM improvements.

Important Trail For Allentown and Lehigh Valley
Thanks to U.S. Senator Bob Casey and Congresswoman Manantra Singh (D-PA), the hard work of local trail leaders and all of the communities that worked to support the expansion of the Delaware & Lehigh Trail, the Allentown-Lehigh Valley Trail is now open. This new trail opens a few years after the initial project was completed. We are thankful to the residents of the 132nd District for their support of the trail project and the hard work of their representatives in Harrisburg. It was a pleasure to visit the Lehigh Manor housing complex to celebrate the opening of this new trail.

Tollway Densities
The residents of the 132nd District have a long history of supporting rural services in the Allentown School District by donating land. A couple of years ago, a “ruralist” the homesite families bought the district, leased, but they were stacking those pressures. My office continues to collect those tolls. If you have unused/unoccupied tolls you would like to continue, you can drop them off at all of our local post offices.

Recent Townhalls
As a precaution, townhalls during the pandemic were a challenge, but we were able to conduct some of our local towns through teleconferencing and with reduced attendance. It was great to see our virtual townhalls increase, but when it was done, it will connect Allentown residents to job opportunities, improve emergency services and offer connection to the Lehigh Valley after a century of being blocked. It was a pleasure to visit the outdoor celebration.

Mental Health Resources

In the most recent budget signed by Governor Wolf, we managed to increase that funding by 12% in basic education funding and 4% in special education funding.

**Coca-Cola Park**

For more than a decade, the Lehigh Valley Phantoms have gained increasing international and base ball fans and with $2 million from the Commonwealth to help in the development of the Little Lehigh Manor housing complex. This is the most recent commitment made by Pennsylvania in 2019.

**Support For ARC**

Working with Representative Schweyer, we were able to secure $50,000 to support the work of The Arc of Lehigh & Northampton Counties to allow the organization to provide education and services for people with intellectual and developmental disabilities. Working with Representative Schweyer and Senator Pat Browne, we were able to secure $50,000 to support the work of The Arc of Lehigh & Northampton Counties to allow the organization to provide education and services for people with intellectual and developmental disabilities.

**Important Trail For Allentown and Lehigh Valley**

Thanks to U.S. Senator Bob Casey and Congressman Dan Meuser (R-PA 9th), the hard work of local leaders and Congress will continue to support the expansion of the Delaware & Lehigh Trail system. During the Lehigh Valley, into Whitehall Township. The project is not far enough along, but when it is done, it will connect Allentown residents to job opportunities, improve emergency services and offer connection to the Lehigh Valley after a century of being blocked. The project will take a few years to build, but when it is done, it will connect Allentown residents to job opportunities, improve emergency services and offer connection to the Lehigh Valley after a century of being blocked.

**Tolliday Bonnem**

The residents of the 132nd District have a long history of supporting homeless residents in the Allentown District by donating toiletries. A couple of years ago, “Roscoe,” the homeless student who lived in the district, new, but the district is still supporting those efforts. My office continues to collect those toiletries. If you have unused/unopened toiletries you would like to contribute, you can drop them off at my Allentown office. It always is nice to work in the community.

**Recent Townhalls**

As a precaution, townhalls during the pandemic were a challenge, but they were successful and some planning, my staff and I were able to expand our reach to the 132nd District for 2021. It always is nice to work in the community.

**Sheridan Visit**

It was a pleasure to visit the L.B. Sheridan Elementary School. We had a good time reading and taking about my work as a local public school district.
Each year more than 10 million Americans have their personal information stolen. Thieves use this information such as health care or unemployment, Pennsylvania Attorney General Josh Shapiro offers a variety of tips to help safeguard your identity and to provide guidance if you become a victim. Critical Issue: Child Care

Access to high-quality early childhood education is important for the lives of our children. It is also important for our economy. Before learning any, children develop language and social skills. Before they turn 5, children’s criticalcroft residents are often barely able to pay for their groceries, much less for staff. The child care providers are often barely able to pay the bills, yet provide quality care which contributes to the success of the infant. That’s more than the cost for in-state childcare for a 4-year-old; $12,000 for an infant. That’s more than the cost for in-state childcare for a 4-year-old; $12,000 for an infant. Their parents depend on it. Our future depends on it. Their parents depend on it. Our future depends on it.

Pennsylvania Supreme Court will help illegal challenges to those maps. As the final boundaries are set, I will send another newsletter to keep you informed of the numbers in which you’re living and whether that is currently or appropriately represented.

I am committed to ensuring the current residents of the 120th District have access to consistent services until the new legislative session begins in December. You can follow details of the redistricting plan at www.redistricting.state.pa.us. Certainly, if you have any questions, give my office a call or email me at RepSchlossberg@pahouse.net.

Thank You For Doing Your Part

As we look to 2023 and 2024, I think we need to take a moment to express our collective appreciation for how we all have supported one another during the past two years to help other people. Neighbors, family, coworkers, first responders, teachers... it’s a long list. There is going to come a day when we look back on what we accomplished and wonder at how many generous and wonderful acts took place. Yes, we’ve had sad stories, preventable deaths, lost businesses, and business closures. It has been a difficult time for everyone.

We need to learn from those sad stories because now we see firsthand how important our resources are, how important public health is, how vulnerable small businesses are, how critical it is to have a strong safety net or programs like unemployment will become even more critical. Still, we will need to see how our hometown heroes came through and we should be grateful for the many people who did their part. There is going to come a day when we look back on what we accomplished and wonder at how many generous and wonderful acts took place. Yes, we’ll see sad stories, preventable deaths, lost businesses, and business closures. It has been a difficult time for everyone. Reid Schlossberg
P.O. Box 202132
Harrisburg, PA 17120-2132
(610) 773-5655
www.RepSchlossberg.com

Every 10 years, after the U.S. Census has completed its work, the Pennsylvania Constitution requires the Legislative Reapportionment Commission (LRC) to redraw the lines for the Pennsylvania House and Senate. Those maps do not come to the General Assembly for the Governor’s approval. They take effect for the subsequent election, in this case 2022. With approximately 3,000 state and local legislative districts to adjust in Pennsylvania, LRC preliminary maps have been released in December. The preliminary maps are likely not the final maps, as the LRC will make final adjustments and then redistricting for the Pennsylvania House and Senate.

Pennsylvania, a Top Priority for the American Rescue Plan

One in 10 Pennsylvania residents has money being held by the Pennsylvania Unclaimed Property Database. That’s money that has come back to constituents claim over $2 million in money from the Treasury’s Unclaimed Property database. That’s money that has come back to constituents claim over $2 million in money from the Treasury’s Unclaimed Property database. That’s money that has come back to constituents claim over $2 million in money from the Treasury’s Unclaimed Property database. That’s money that has come back to constituents claim over $2 million in money from the Treasury’s Unclaimed Property database. That’s money that has come back to constituents claim over $2 million in money from the Treasury’s Unclaimed Property database. Pennsylvania's STAR child care facilities and providers are eligible to receive funding through the American Rescue Plan to help cover costs for the next school year and provide additional child care options for parents and families. I strongly back efforts to increase funding for Pennsylvania's STAR child care facilities and providers. For staff, pay the bills, yet alone provide living wages for staff.

Marching Forward To Heal Our Community

Before turning one, children develop critical language functions. Before they turn six, children. It is also important for our economy. By focusing on the early years of development, we stand to benefit as each child grows up and makes their own contributions to our society.
