$3M TO HELP BUSINESSES RECOVER FROM PANDEMIC

Erie businesses received $3 million through Pennsylvania’s COVID-19 Hospitality Industry Relief Program that I brought home to help local businesses recover from pandemic-related challenges. These funds came in addition to $2 million that I secured in legislation to help businesses like the local hospitality industry recover from the pandemic.

$50K SAFE AT LECOM

I supported local initiatives to enhance safety and accessibility for Erie County residents. I helped secure a $50K grant through the Pennsylvania Department of Health for the Lake Erie Community College to implement smoke-free policies and other initiatives to ensure a safe environment for students and faculty.

$2M IN GRANT MONEY FOR MILLCREEK TOWNSHIP

I helped secure $2 million in federal grants for Millcreek Township to address stormwater management, providing relief to local businesses and residents.

$11M FOR LOCAL PROJECTS IN ERIE COUNTY

I secured $11 million in federal allocations for various local projects, including infrastructure and economic development initiatives.

I presented a PA State Citation in a PA State enforcement crack down on illegal use. Our efforts with community safety and fireworks legalization. After a hearing on green energy, I worked on and used that platform to bring home results. As Chairman of the Policy Committee, we held 70 hearings across the Commonwealth. The hearings led to action: 40 bills on the issues that matter to you, like the suburban areas across Pennsylvania that lack broadband. challenges of getting connected in rural, urban, and modern society. That's why as Chair, I held a hearing on the Internet access is no longer a luxury, but a requirement for a stronger economy for all of us.

Policy leads the way

As Chairman of the Policy Committee, we are working across the Commonwealth this year to help Pennsylvanians with their everyday lives. Our work includes helping veterans, the elderly, and people with disabilities. Through my office’s Veterans Assistance Program, we have helped veterans navigate the complex process of accessing the benefits they earned through their service. We have also focused on ensuring that veterans have access to the services they need, such as healthcare, housing, and education.

Help businesses grow + thrive

I am focused on rewarding innovation and making our region a place where small businesses and entrepreneurs can thrive. To do this, we need to create an environment that is more attractive to business—this means making the tax code fairer and reducing the Pennsylvania Corporate Income Tax from one of the highest in the nation to one of the lowest in the region.

Attract workers + families

I am fighting to put more money back into the pockets of working families. I’m fighting for an Earned Income Tax Credit—improving the lives of families by providing them with financial relief. I’m fighting against cuts to social programs so that someone who is too sick to work doesn’t miss a paycheck. I’m fighting so you can plan your retirement and not work for the rest of your life. We must attract more workers to the region and build a workforce for all of us.

Connect everyone for safety + success

I am proud to have introduced legislation that would require all vehicles in Pennsylvania to have a functional anti-theft mechanism. This legislation is crucial to ensuring the safety of our drivers and the security of our roads. As chair of the Policy Committee, I focus on creating a better climate for workers and businesses in the region.

Making medication more affordable

No Pennsylvaniaan should have to choose between medical care and other necessities. I introduced legislation that would allow Medicare to negotiate the price of prescription drugs. This is why I voted for H.B. 1260/Act 94, a bill that increased the income limits for the PACENET prescription drug assistance program. If you or someone you know is struggling, please visit my District Office.

Celebrating the Milestones

I presented a PA State Recognition in celebration of my 100th birthday. I recently visited a manufacturing company in my district to hear about their initiatives to improve safety and productivity. I was also able to connect with community leaders and elected officials to discuss issues affecting our communities.
