by calling my office at 412-928-9514.***

The PA Department of Aging created APPRISE to help Pennsylvania residents understand their Medicare and other health insurance benefits and to help them make informed decisions about their health care options.

With Medicare Open Enrollment slated for Oct. 15 – Dec. 7, I am partnering with APPRISE to host enrollment sessions throughout the district. At the Community Medicare Open Enrollment events, APPRISE counselors will help individuals understand how the Medicare system works and assist them in selecting their most effective options for accessing health care services.
